Delay in PSA, Vitamin B12, and Ferritin Testing

Effective Date: November 17, 2021

Contact: Chemistry

Overview:

The IU Health Chemistry Laboratory is currently experiencing testing delays due to a shortage of reagents that are required to perform the following tests: **PSA, Vitamin B12, and Ferritin**.

We have been in contact with the manufacturer to obtain more reagent as soon as possible.

Additional updates will be provided as available. Thank you for your patience.

Questions:

If there are any questions on test requirements or ordering, please call IU Health Pathology Laboratory Client Services at 317.491.6000 or 800.433.0740.
