

PGY-2 Pharmacy Informatics Residency

Indiana University Health is offering a one-year PGY2 residency in Informatics. The resident will gain knowledge and experience in the development, maintenance, and management of effective pharmacy information systems and associated projects. This includes clinical decision support, computerized prescriber order entry, eMAR functionality, automation, integration/interfaces, and barcode technology. The residency year consists of longitudinal rotations as well as short-term focused rotations around particular topics. Opportunities for teaching at Butler University and the on-site training of pharmacy students and residents are available. The resident has the option to complete a one-month patient care or medication safety rotation outside of the informatics department. Completion of a major residency project is expected.

Indiana University Health is a multi-hospital system which includes both academic and community facilities. The Indiana University Health Information Services department supports all of the Indiana University Health facilities. Objectives of this residency are in accordance with those developed by ASHP for an Informatics Specialty Residency.

Application Requirements

The qualified applicant must possess a Doctor of Pharmacy Degree from an accredited college of pharmacy and must be eligible for Indiana licensure. Completion of a prior ASHP accredited PGY1 residency is required. All offers are contingent upon a background check, reference check, and pre-placement health assessment, which includes a drug test. If selected for an on-site interview, a presentation and completion of clinical case will be required.
