

New IRB Fee Structure for Industry Sponsored Research

The IU Health Ball Institutional Review Board (IRB) Office charges for review of commercially funded human subject research studies (predominantly pharmaceutical and device companies). There is no charge for federal, investigator-initiated, or hospital supported research.

Effective January 1, 2017, the IRB fee structure will be as follows:

Type of Item	Definition	Fee
Initial, Full Review	New studies requiring review by the convened IRB	\$2500
Initial, Expedited Review	New studies not requiring review by the convened IRB, but which meet applicability for expedited review	\$2000
Initial, Commercial IRB	Initial review of new studies submitted to a Commercial IRB. This is an IUH Ball internal processing fee and is not inclusive of fees which may be charged by the Commercial IRB	\$500
Major Amendments	Review of amendments which require review by the convened IRB	\$500
Full Board Renewals	Review of renewals which require review by the convened IRB	\$500
