CPE Intern Program – Summer 2026

June 1, 2026-August 17, 2026

Clinical Pastoral Education (CPE) is an interfaith professional education for spiritual care and ministry with emphasis on learning from your direct clinical/pastoral care and group experiences. Out of an intense involvement with persons in need, and the feedback from peers and the educator, students develop an increased awareness of themselves as persons and of the needs of those whom they serve. From theological/spiritual reflection on specific human situations, they gain a deeper understanding of their ministry and helping roles. Weekly seminars with peers and individual supervision focus on the self-directed adult learners' particular learning goals and needs. CPE equips students with interpersonal, spiritual care and counseling, and crisis ministry skills that are crucial for ministry in healthcare, parish, community, and other settings.
