PGY2 Emergency Medicine

Indiana University Health offers a one-year PGY-2 Emergency Medicine Residency. This residency provides rotation opportunities at IU Health Methodist Hospital, IU Health University Hospital, and Riley Hospital for Children at IU Health. The resident will experience emergency medicine opportunities in an adult and pediatric Level One trauma center as well as community-based emergency departments. Additional opportunities include experience in disaster medicine, toxicology with the Indiana Poison Center and multiple other ICU and non-ICU elective rotations. A teaching certificate program, ACLS, PALS, and other training programs are also available. The Emergency Department at Indiana University Health Methodist cares for over 100,000 patients each year. Methodist Hospital is a Level One trauma center and the only Comprehensive Stroke Center in Indiana. Riley Hospital for Children is home to the only Level One Pediatric Trauma Center in Indiana. IU Health serves as teaching sites for both Butler and Purdue Universities Colleges of Pharmacy as well as Indiana University School of Medicine.

Application Requirements

The qualified applicant must possess a Doctor of Pharmacy Degree from an accredited college of pharmacy and must be eligible for Indiana licensure. Completion of a prior ASHP accredited PGY1 residency is required. All offers are contingent upon a background check, reference check, and preplacement health assessment, which includes a drug test. If selected for an on-site or virtual interview, a presentation and completion of clinical case will be required.
