

Post-Graduate Track: Adult Urology

The Adult Urology Postgraduate APP Training Program is a one-year, post-graduate experience designed for nurse practitioners (*FNP, AGNP, AGACNP*) and physician assistants in a nationally ranked health system. The program will offer a comprehensive design with rotations in various subspecialty services.

The trainee will have the opportunity to build on their graduate academic training by strengthening and developing skills in a variety of domains critical to advance practice. Trainees will work alongside our current APP and physician staff to expand their knowledge and skills related to the clinical management of urologic patients.

The program provides trainees with:

- A solid foundation to build their advanced practice career in a nationally recognized health system
- Comprehensive experience including:
 - Hands-On Learning in specialty clinical areas
 - Didactic Sessions
 - Mentorship
 - Simulation experiences focusing on clinical patient management
 - Case-based learning

Training Objectives

1. Trainees will gain experience and become proficient in providing care for urologic patients in the inpatient/outpatient setting in a tertiary care center
2. Display growing knowledge and skills related to the clinical management of diverse urologic patients
3. IU Health is committed to Value-based care delivery; It is expected that trainees, the leadership team, and clinical mentors will incorporate the IU Health Way in all activities
