

Cytology NonGyn Ordering Update

Effective Date:

December 29th, 2020

Contact: Client Services

Update Description:

Effective December 29th, 2020, the Orderable Cytology NonGyn will no longer print requisitions upon submitting to Cerner. Previously a requisition was meant to accompany the specimen to the lab, but through a series of interface improvements we have eliminated the need for paper at this time.

If a paper requisition is accidentally included, the test will still be performed.

Questions:

If there are any questions on test requirements or ordering, please call IU Health Pathology Laboratory Client Services at 317.491.6000 or 800.433.0740. For any additional information regarding this change to the Cytology NonGyn ordering process, please contact Melissa Randolph, Cytopathology Lab Manager, by calling 317.491.6605 or emailing mrandolph@iuhealth.org.
