

PGY-2 Hematology/Oncology Residency

Indiana University Health is offering a one-year ASHP-accredited PGY2 Residency in Hematology/Oncology based at Indiana University Simon Cancer Center (IUSCC), a National Cancer Institute designated clinical cancer center. This residency program provides advanced training in the provision of comprehensive clinical services to patients with cancer in the inpatient and ambulatory treatment settings. Areas of focus include hematologic malignancies, solid tumor oncology, stem cell transplant, gynecologic oncology, pediatric oncology, and community oncology practice. Experience in clinical trials oversight, teaching of pharmacy students and residents, participation in physician faculty conferences, drug-use policy development, and participation in multidisciplinary committees is provided.

Objectives of this residency parallel those developed by ASHP for Specialized Residency Training in Oncology Pharmacy Practice.

Areas of Experience will include, but are not limited to

- Prospective evaluation of chemotherapy orders and serving as an authoritative resource for the appropriateness of treatment regimen, dosing, and supportive care measures.
- Participation in medical staff rounds.
- Moderation of patient group teaching conferences and individual patient counseling opportunities. Protocol review opportunities through the IUSCC Scientific Review Committee and IRB.
- Provision of drug information to health care professionals affiliated with IUSCC and outlying clinics Preparation and publication of manuscripts suitable for publication in the peer-reviewed literature.
- Teaching and precepting Purdue University and Butler University Pharm.D. students and Indiana University Health pharmacy practice residents in both didactic and experiential settings.
- Active involvement in the management of drug use policy efforts at Indiana University Health including participation in Pharmacy and Therapeutics (P&T) Committee activities, formulary management, and implementation of drug prescribing guidelines.
- Rotations through IUSCC and community practice ambulatory hematology and oncology clinics.

Application Requirements:

The qualified applicant must possess a Doctor of Pharmacy Degree from an accredited college of pharmacy and must be eligible for Indiana licensure. Completion of a prior ASHP accredited PGY1 residency is required. All offers are contingent upon a background check, reference check, and pre-placement health assessment, which includes a drug test. If selected for an on-site interview, a presentation and completion of clinical case will be required.
