

## VIRTUAL CONSULTATIONS

Your **trusted partner** for providing the right care for complex cases.

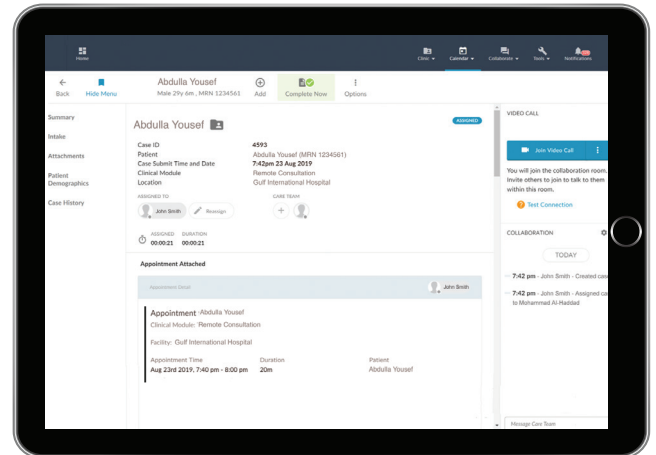

2019-20 U.S. NEWS & WORLD REPORT

The multidisciplinary clinical team at Indiana University Health provides physicians from around the globe direct access to collaborate on patient care through our virtual consultation platform. Our unique partnership with Indiana University School of Medicine, the largest medical school in the United States, connects you and your patients with disease-specific specialists who are utilizing the latest innovative treatments and leading-edge therapies—all from your facility/hospital.

- Meet virtually with IU Health physicians using an iPad or computer with an enabled camera. You can collaborate real-time through our secure, encrypted app-based platform, allowing up to seven individuals to work virtually on multidisciplinary cases.
- Determine the right treatment plan without requiring your patient to travel.
- Partner with IU Health, nationally ranked for 22 consecutive years, and Riley Children's Hospital at IU Health, ranked in 9 pediatric specialties, on adult and pediatric complex cases.
- Consult with specialists in areas including but not limited to:
  - **Adult** gastroenterology, oncology, urology, neurology and transplant
  - **Pediatric** cardiology, oncology and neurology
- Share encrypted patient vitals using Wi-Fi enabled and wired peripherals including hand-held camera, close-up derm-scope, otoscope, stethoscope, basal thermometer, and other exam tools.
- You will be able to chat and message with the IU Health team, all within the patient record.
