

Indiana University Health

Department of Pathology and Laboratory Medicine

IU Health Pathology Laboratory
Indianapolis, IN 46202

ADDENDUM C

To: All IU Health Laboratory Outpatients

Subject: Standing Orders

Your physician has determined that you will need to have the same lab test(s) repeated multiple times over a period of time (not to exceed one year) for the same medical condition. The written order for these lab tests is called a “Standing Order”.

You will be given a “Standing Order” card which you must bring with you each time you come for testing. **You must present the card to the Registration staff each time that you come to the lab to have samples collected.**

The lab can not collect the specimen if the order has expired. Your physician will be contacted sixty (60) and thirty (30) days prior to expiration in an attempt to obtain a renewed order.

If you have any question, please ask the lab staff taking care of you today. Thank you for your cooperation.
